List of Contributors	vii
Preface	xi
Acknowledgments	xii

SECTION I MECHANISMS

1. Myometrial programming: a new concept underlying the regulation of myometrial function during pregnancy
Stephen J Lye, Prudence Tsui, Xuesen Dong, Jennifer Mitchell, Anna Dorogin, Daniel MacPhee, Alexandra Oldenhoff, B Lowell Langille, John RG Challis, and Oksana Shynlova 3
2. Cervical function during pregnancy and parturition
R Ann Word and Xiang-Hong Li 19
3. Endocrine and paracrine mechanisms in human placenta and fetal membranes in preterm birth
Michela Torricelli, Alessia Giovannelli, Paolo Boy Torres, Letizia Galleri, Pasquale Florio, Filiberto Severi, Fernando M Reis, and Felice Petraglia 35
4. Stress and the pathophysiology of human birth
Roger Smith 42

SECTION II MEDIATORS

5. Undernutrition, preterm birth, and the prostaglandin pathway
John RG Challis 51
6. Gene redundancy in parturition: lessons for tocolysis?
Andrew M Blanks and Steven Thornton 56
7. Regulation of inflammatory response pathways during pregnancy and labor
Carole R Mendelson, Jennifer C Condon, and Daniel B Hardy 60
8. Matrix biology and preterm birth
Brian R Heaps, Michael House, Simona Socrate, Phyllis Leppert, and Jerome F Strauss III 70

9. Nitric oxide
Jane E Norman and Inass Osman 94
10. Relaxin-related preterm birth
Gerson Weiss and Laura T Goldsmith 103

SECTION III METHODS OF PREDICTION AND PREVENTION

11. Biochemical markers of preterm delivery
Charles J Lockwood 115
12. Biophysical methods of prediction and prevention of preterm labor: uterine electromyography and cervical light-induced fluorescence – new obstetrical diagnostic techniques
Robert E Garfield and William L Maner 131
13. Genetics of preterm delivery
Kenneth Ward 145

SECTION IV CURRENT STATUS OF INTERVENTIONS

14. Calcium-channel blockers and betamimetics
John J Morrison and Sharon M Cooley 159
15. Prostaglandins, oxytocin, and antagonists
A López Bernal 167
16. Progestational agents and labor
Paul J Meis 178
17. Antenatal corticosteroid treatment
John P Newnham and Timothy JM Moss 181
18. Monitoring the growth-restricted fetus during the preterm period
Gerard HA Visser 192

- Index 199
