# BIOCHEMISTRY AND MOLECULAR BIOLOGY

**4TH EDITION**

*Todd A. Swanson*

*Sandra I. Kim*

*Marc J. Glucksman*

- All questions provided both in print and online!
- Approximately 500 USMLE-type questions with explanations
- Numerous illustrations, tables, and equations
- Easy-to-follow outline covering all USMLE-tested topics

Dedication	v
Preface	vi
Acknowledgments	vii

## **1 Biomolecules: Life's Building Blocks ..... 1**

<b>I.</b>	Brief Review of Organic Chemistry	1
<b>II.</b>	Acids, Bases, and Buffers	1
<b>III.</b>	Carbohydrate Structure	5
<b>IV.</b>	Proteoglycans, Glycoproteins, and Glycolipids	10
<b>V.</b>	Amino Acids	11
<b>VI.</b>	Lipids	14
<b>VII.</b>	Membranes	16
<b>VIII.</b>	Nucleotides	18
<b>Review Test</b>		<b>20</b>

## **2 Protein Structure/Function ..... 25**

<b>I.</b>	General Aspects of Protein Structure	25
<b>II.</b>	Examples of Medically Important Proteins	32
<b>Review Test</b>		<b>37</b>

## **3 Enzymes and Kinetics ..... 44**

<b>I.</b>	General Properties of Enzymes	44
<b>II.</b>	Dependence of Velocity on Enzyme and Substrate Concentrations, Temperature, and pH	47
<b>III.</b>	The Michaelis-Menten Equation	48
<b>IV.</b>	The Lineweaver-Burk Plot	49
<b>V.</b>	Inhibitors	49
<b>VI.</b>	Allosteric Enzymes	51
<b>VII.</b>	Regulation of Enzyme Activity by Post-Translational Modification	52
<b>VIII.</b>	Regulation by Protein-Protein Interactions	53
<b>IX.</b>	Isoenzymes	53
<b>Review Test</b>		<b>54</b>

## **4 Bioenergetics ..... 60**

<b>I.</b>	Metabolic Fuels and Dietary Components	60
<b>II.</b>	Bioenergetics	64
<b>III.</b>	Biological Oxidations	66
<b>IV.</b>	Properties of Adenosine Triphosphate	67
<b>Review Test</b>		<b>69</b>

<b>5</b>	<b>The Biochemistry of Digestion</b> .....	<b>75</b>
I.	Digestion of Carbohydrates	75
II.	Digestion of Dietary Triacylglycerol	77
III.	Protein Digestion and Amino Acid Absorption	79
	<b>Review Test</b>	<b>83</b>
<b>6</b>	<b>Glycolysis</b> .....	<b>89</b>
I.	General Overview	89
II.	Transport of Glucose into Cells	89
III.	Reactions of Glycolysis	89
IV.	Special Reactions in Red Blood Cells	92
V.	Regulatory Enzymes of Glycolysis	92
VI.	The Fate of Pyruvate	95
VII.	Generation of ATP by Glycolysis	96
	<b>Review Test</b>	<b>99</b>
<b>7</b>	<b>The Tricarboxylic Acid Cycle</b> .....	<b>105</b>
I.	The Tricarboxylic Acid (TCA) Cycle	105
	<b>Review Test</b>	<b>114</b>
<b>8</b>	<b>The Electron Transport Chain and Oxidative Metabolism</b> .....	<b>119</b>
I.	Electron Transport Chain and Oxidative Phosphorylation	119
II.	Reactive Oxygen Species (ROS)	125
	<b>Review Test</b>	<b>129</b>
<b>9</b>	<b>Glycogen Metabolism</b> .....	<b>135</b>
I.	Overview of Glycogen Structure and Metabolism	135
II.	Glycogen Structure	135
III.	Glycogen Synthesis	135
IV.	Glycogen Degradation	138
V.	Lysosomal Degradation of Glycogen	139
VI.	Regulation of Glycogen Degradation	140
VII.	Regulation of Glycogen Synthesis	142
	<b>Review Test</b>	<b>144</b>
<b>10</b>	<b>Gluconeogenesis and the Maintenance of Blood Glucose Levels</b> .....	<b>150</b>
I.	Overview	150
II.	Reactions of Gluconeogenesis	151
III.	Maintenance of Blood Glucose Levels	156
	<b>Review Test</b>	<b>161</b>
<b>11</b>	<b>Miscellaneous Carbohydrate Metabolism</b> .....	<b>167</b>
I.	Fructose and Galactose Metabolism	167
II.	Pentose Phosphate Pathway	170
III.	Proteoglycans, Glycoproteins, and Glycolipids	173
	<b>Review Test</b>	<b>178</b>
<b>12</b>	<b>Fatty Acid and Triacylglycerol Synthesis</b> .....	<b>184</b>
I.	Fatty Acid and Triacylglycerol Synthesis	184
II.	Formation of Triacylglycerol Stores in Adipose Tissue	190
	<b>Review Test</b>	<b>192</b>

<b>13</b>	<b>Fatty Acid Oxidation</b> .....	<b>197</b>
	I. Fatty Acid Oxidation	197
	<b>Review Test</b>	<b>203</b>
<b>14</b>	<b>Cholesterol Metabolism and Blood Lipoproteins</b> .....	<b>209</b>
	I. Cholesterol and Bile Salt Metabolism	209
	II. Blood Lipoproteins	213
	<b>Review Test</b>	<b>218</b>
<b>15</b>	<b>Ketones and Other Lipid Derivatives</b> .....	<b>224</b>
	I. Ketone Body Synthesis and Utilization	224
	II. Phospholipid and Sphingolipid Metabolism	226
	III. Metabolism of the Eicosanoids	230
	IV. Synthesis of the Steroid Hormones	232
	<b>Review Test</b>	<b>235</b>
<b>16</b>	<b>Amino Acid Metabolism</b> .....	<b>241</b>
	I. Addition and Removal of Amino Acid Nitrogen	241
	II. Urea Cycle	243
	III. Synthesis and Degradation of Amino Acids	246
	<b>Review Test</b>	<b>255</b>
<b>17</b>	<b>Products Derived from Amino Acids</b> .....	<b>261</b>
	I. Special Products Derived from Amino Acids	261
	II. Tetrahydrofolate and S-Adenosylmethionine	269
	<b>Review Test</b>	<b>272</b>
<b>18</b>	<b>Nucleotide and Porphyrin Metabolism</b> .....	<b>278</b>
	I. Purine and Pyrimidine Metabolism	278
	II. Heme Metabolism	283
	<b>Review Test</b>	<b>288</b>
<b>19</b>	<b>Integrative Metabolism and Nutrition</b> .....	<b>294</b>
	I. Dietary Requirements	294
	II. Metabolism During the Fed or Absorptive State	300
	III. Fasting	303
	IV. Prolonged Fasting (Starvation)	305
	V. Biochemical Functions of Tissues	306
	<b>Review Test</b>	<b>311</b>
<b>20</b>	<b>Molecular Endocrinology</b> .....	<b>317</b>
	I. General Mechanisms of Hormone Action	317
	II. Regulation of Hormone Levels	319
	III. Actions of Specific Hormones	323
	<b>Review Test</b>	<b>333</b>
<b>21</b>	<b>DNA Replication and Transcription</b> .....	<b>340</b>
	I. Nucleic Acid Structure	340
	II. Synthesis of DNA (Replication)	346
	III. Synthesis of RNA (Transcription)	352
	<b>Review Test</b>	<b>358</b>

<b>22</b>	<b>RNA Translation and Protein Synthesis</b> .....	<b>363</b>
<b>I.</b>	Protein Synthesis (Translation of Messenger RNA [mRNA])	363
<b>II.</b>	Regulation of Protein Synthesis	369
	<b>Review Test</b>	<b>376</b>
<b>23</b>	<b>The Biochemistry of Cancer</b> .....	<b>383</b>
<b>I.</b>	Cell Cycle	383
<b>II.</b>	Control of the Cell Cycle	385
<b>III.</b>	Oncogenes	386
<b>IV.</b>	Tumor-Suppressor Genes	388
<b>V.</b>	Apoptosis	390
<b>VI.</b>	Mechanism of Oncogenesis	391
<b>VII.</b>	Molecular Carcinogenesis	393
<b>VIII.</b>	DNA Repair and Carcinogenesis	395
<b>IX.</b>	Molecular Progression of Cancer	396
<b>X.</b>	Molecular Markers in Cancer Biology	398
	<b>Review Test</b>	<b>399</b>
<b>24</b>	<b>Techniques in Biochemistry and Molecular Biology</b> ....	<b>405</b>
<b>I.</b>	Biotechnology Involving Recombinant DNA	405
<b>II.</b>	Technology Involving Proteins	416
	<b>Review Test</b>	<b>420</b>
	<b>Comprehensive Examination</b> .....	<b>427</b>
	<b>Index</b> .....	<b>458</b>
