## History of the Division of Coloproctology

1.1	History of the Division of Coloproctology	3
	<i>John Nicholls</i>	
1.1.1	Section of Surgery UEMS, Including the EBSQ (Coloproctology) Diploma	3
1.1.2	Division of Coloproctology	3
1.1.3	The EBSQ (Coloproctology) Diploma	3
1.1.3.1	Part I: Eligibility	4
1.1.3.2	Part II: Examination	4
1.1.4	Aims of the Division of Coloproctology	4

## Anatomy

2.1	Colon, Rectum, Anus, Pelvic Floor	7
	<i>Thilo Wedel</i>	
2.1.1	Introduction	7
2.1.2	Colon	7
2.1.2.1	Structure of the Colonic Wall	7
2.1.2.2	Colonic Segments	8
2.1.2.3	Blood Vessel Supply of the Colon	8
2.1.2.4	Lymphatic Drainage of the Colon	10
2.1.2.5	Nerve Supply of the Colon	10
2.1.3	Rectum and Anus	12
2.1.3.1	Rectal Ampulla	12
2.1.3.2	Anal Canal and Anus	12
2.1.3.3	Pelvic and Rectal Fasciae	14
2.1.3.4	Blood Vessel Supply of the Rectum and Anus	15
2.1.3.5	Lymphatic Drainage of the Rectum and Anus	16
2.1.3.6	Nerve Supply of the Rectum and Anus	16

2.1.4	Pelvic Floor	16
2.1.4.1	Levator Ani Muscle	17
2.1.4.2	External Anal Sphincter	18
2.1.4.3	Smooth Pelvic Muscles	18
2.1.4.4	Nerve Supply of the Pelvic Floor	18
2.1.4.5	Blood Vessel Supply of the Pelvic Floor	18
2.1.4.6	Anal Continence Organ	19
2.1.4.7	Pelvic Spaces	19
	Suggested Reading	20

## Physiology

3.1	Colon, Rectum, Anus	23
	<i>Klaus Krogh, Soeren Laurberg</i>	
3.1.1	Functions of the Colon and Rectum	23
3.1.2	Colonic and Rectal Muscle Physiology	23
3.1.2.1	Resting Membrane Potential	23
3.1.2.2	Colonic Muscle Contraction	23
3.1.2.3	Colonic Motility	23
3.1.2.4	Rectal Motility	24
3.1.2.5	Postprandial and Diurnal Changes	24
3.1.2.6	Neural Control of Colorectal Motility	24
3.1.3	Colorectal Transit Time	26
3.1.4	Anorectal Physiology	27
3.1.4.1	Internal Anal Sphincter	27
3.1.4.2	External Anal Sphincter	27
3.1.4.3	Puborectalis Muscle	27
3.1.4.4	Rectal Compliance	27
3.1.4.5	Anorectal Sensitivity	27
3.1.4.6	Anorectal Motility	27
3.1.5	Defaecation	29
3.1.6	Physiological Assessment of the Colon and Rectum	29

3.1.6.1	Colonic Motility	29
3.1.6.2	Anal Manometry	30
3.1.7	Absorption of Water and Electrolytes	30
3.1.8	Absorption of Short-chain Fatty Acids	31
	Suggested Reading	31

## Anal Disorders

4.1	<b>Haemorrhoids</b>	35
	<i>Per-Olof Nyström, Roger Gerjy</i>	
4.1.1	Introduction	35
4.1.2	Anatomy	35
4.1.3	Incidence	35
4.1.4	Symptoms	36
4.1.5	Diagnosis	37
4.1.6	Classification	37
4.1.7	Treatment	37
4.1.7.1	Sclerosing Injection	38
4.1.7.2	Rubber Band Ligation	39
4.1.7.3	Thermal Coagulation	39
4.1.7.4	Haemorrhoid Artery Ligation	39
4.1.7.5	Radiofrequency Ablation	40
4.1.7.6	Excision of the Haemorrhoids	40
4.1.7.7	Submucosal Haemorrhoidectomy	40
4.1.7.8	Stapled Anopexy (Stapled Haemorrhoidopexy)	40
4.1.8	Position of the Patient	41
4.1.9	Operation Under Local Anaesthesia	41
4.1.10	Pre- and Postoperative Care	41
4.1.11	Complications	41
4.1.12	Incontinence	42
4.1.13	Recurrence of Haemorrhoids	42
	Suggested Reading	42
4.2	<b>Fissures</b>	45
	<i>Mario Pescatori, Claudio Mattana</i>	
4.2.1	Definition	45
4.2.2	Aetiology	45
4.2.3	Function of the Internal Sphincter	45
4.2.4	Symptoms and Diagnosis	46
4.2.5	Therapy	46
4.2.5.1	Conservative Treatment	46
4.2.5.2	Surgical Treatment	48
	Suggested Reading	51
4.3	<b>Abscess, Fistula</b>	53
	<i>W.R. Schouten</i>	
4.3.1	Introduction	53
4.3.2	Classification	53
4.3.3	Epidemiology	53

4.3.4	Assessment	54
4.3.4.1	Digital Examination	55
4.3.4.2	Fistulography	55
4.3.4.3	Endosonography and Magnetic Resonance Imaging	55
4.3.5	Therapy	57
4.3.5.1	Fistulotomy of an Intersphincteric Fistula	57
4.3.5.2	Fistulotomy of a Transsphincteric Fistula	57
4.3.5.3	Staged Cutting Seton Technique for High Transsphincteric Fistula	58
4.3.5.4	Fibrin Glue for High Transsphincteric Fistula	58
4.3.5.5	Transanal Mucosal Advancement Flap Repair for High Transsphincteric Fistula	58
4.3.5.6	Anocutaneous Advancement Flap Repair for High Transsphincteric Fistula	59
	Suggested Reading	59

## Dermatology

5.1	<b>Pruritus Ani</b>	65
	<i>Sylvia Proske, Wolfgang Hartschuh</i>	
5.1.1	Aetiology	65
5.1.2	Incidence	65
5.1.3	Differential Diagnosis	65
5.1.4	Diagnostic Procedures	65
5.1.5	Therapy	66
5.1.5.1	Conservative Treatment	66
5.1.5.2	Surgical Treatment	67
5.1.6	Special Considerations	67
	Suggested Reading	67
5.2	<b>Hidradenitis Suppurativa (Acne Inversa)</b>	69
	<i>Wolfgang Hartschuh</i>	
5.2.1	Aetiology	69
5.2.2	Incidence	69
5.2.3	Epidemiology	70
5.2.4	Diagnostic Procedures	70
5.2.5	Therapy	70
5.2.5.1	Conservative Treatment	70
5.2.5.2	Surgical Treatment	70
5.2.6	Complications	71
	Suggested Reading	72
5.3	<b>Condylomata Acuminata</b>	73
	<i>Sylvia Proske, Wolfgang Hartschuh</i>	
5.3.1	Aetiology	73
5.3.2	Incidence	73

5.3.3	Epidemiology	73	6.2.4	Diagnostics	96
5.3.4	Diagnostic Procedures	74	6.2.4.1	Patient's History	96
5.3.5	Therapy	74	6.2.4.2	Physical Examination	97
5.3.5.1	Conservative Treatment	74	6.2.4.3	Colonic Transit Time	99
5.3.5.2	Surgical Treatment	75	6.2.4.4	Defaecography	100
5.3.6	Differential Diagnosis	75	6.2.4.5	Anorectal Manometry	101
5.3.7	Special Considerations	75	6.2.4.6	Electrophysiological Examinations	101
	Suggested Reading	75	6.2.4.7	Endoscopy and Biopsy	101
5.4	<b>Pilonidal Sinus</b>	77	6.2.4.8	Magnetic Resonance Imaging	101
	<i>Wolfgang Hartschuh</i>		6.2.4.9	Psychosocial Evaluation	101
5.4.1	Aetiology	77	6.2.5	Therapy	101
5.4.2	Incidence	77	6.2.5.1	Medical Treatment	101
5.4.3	Epidemiology	77	6.2.5.2	Surgical Treatment	102
5.4.4	Diagnostic Procedures	77		Suggested Reading	102
5.4.5	Therapy	77	6.3	<b>Defaecation Disorders</b>	105
5.4.5.1	Conservative Treatment	77		<i>Paul-Antoine Lehur,</i>	
5.4.5.2	Surgical Treatment	78		<i>Guillaume Meurette</i>	
5.4.6	Complications	78	6.3.1	Introduction	105
5.4.7	Special Considerations	78	6.3.2	Definition	105
	Suggested Reading	79	6.3.2.1	Normal Defaecation	105
			6.3.2.2	Impaired Defaecation	105
			6.3.3	Epidemiology	106
			6.3.4	Aetiology/Pathophysiology	106
			6.3.4.1	Functional Anal Obstacle	106
			6.3.4.2	Rectal Inertia, Rectal Hyposensitivity, Megarectum	106
			6.3.4.3	Excessive Perineal Descent	106
			6.3.4.4	Anatomical Defects and Deformity of the Rectal Reservoir	106
			6.3.5	Diagnostics	107
			6.3.5.1	Symptoms	107
			6.3.5.2	Examination/Clinical Findings	107
			6.3.5.3	Work-up	107
			6.3.5.4	Dynamic Defaecography	108
			6.3.5.5	Anorectal Physiology Tests	108
			6.3.5.6	Colonic Transit Time	108
			6.3.5.7	Endoanal Ultrasound	108
			6.3.5.8	Electromyographic Studies	110
			6.3.5.9	Urological Work-up	110
			6.3.6	Therapy	110
			6.3.6.1	Medical Treatment	110
			6.3.6.2	Biofeedback Therapy/Pelvic Floor Retraining	110
			6.3.6.3	Surgical Treatment	110
			6.3.7	Conclusion	111
				Suggested Reading	113
6.1	<b>Incontinence</b>	83	6.4	<b>Rectal Prolapse, Intussusception, Solitary Rectal Ulcer</b>	115
	<i>Alexander Herold</i>			<i>André D'Hoore</i>	
6.1.1	Aetiology	83	6.4.1	Introduction	115
6.1.2	Incidence	83	6.4.2	Classification	115
6.1.3	Classification	84			
6.1.4	Diagnostic Procedures	84			
6.1.4.1	Inspection and Palpation	84			
6.1.4.2	Proctoscopy and Rigid Sigmoidoscopy (Rectoscopy)	85			
6.1.4.3	Endoanal Ultrasound	85			
6.1.4.4	Anorectal Manometry	85			
6.1.4.5	Neurological Examination	85			
6.1.4.6	Sensitivity Tests	86			
6.1.4.7	Defaecography	86			
6.1.4.8	Continence Tests	86			
6.1.4.9	Special Considerations	86			
6.1.5	Therapy	87			
6.1.5.1	Conservative Treatment	87			
6.1.5.2	Surgical Treatment	88			
6.1.5.3	Recommendations for Therapy	91			
	Suggested Reading	92			
6.2	<b>Constipation</b>	93			
	<i>Peter Buchmann</i>				
6.2.1	Aetiology	93			
6.2.1.1	Colonic Constipation	93			
6.2.1.2	Functional Constipation	94			
6.2.2	Incidence/Epidemiology	95			
6.2.3	Classification	95
