Preface and User Guide vii

Acknowledgements viii

- 1 The Structure and Function of the Skin** 1
Introduction 1
The microstructure of the skin 1
The functions of the skin 10
- 2 Diagnosing and Treating Skin Disease** 15
Introduction 15
Dermatological terminology 15
Starting to make a diagnosis 17
Treating skin diseases 26
Psychological aspects of the dermatological consultation 33
- 3 Cutaneous Infections** 35
Introduction 35
Bacterial infections 35
Viral infections 56
Fungal infections 70
Parasitic infections 86
- 4 Tumours and Naevi** 95
Introduction 95
Naevi and tumours of the epidermal keratinocytes and epidermal appendages 98
Benign epidermal tumours 104
Dysplastic and malignant epidermal tumors 116
Naevi and tumours of melanocytes 131
Dysplastic and malignant melanocytic lesions 145
Naevi of dermal components 153
Vascular naevi 154
Disorders in which angiomas and vascular malformations are a feature 158
Acquired benign dermal tumours 162
Dysplastic and malignant dermal tumours 167
Lymphomas 171
Pseudotumours 173
Subcutaneous tissue tumors 175
- 5 Inflammatory Dermatoses** 177
Urticaria and angio-oedema 177
The eczema-dermatitis group 182
Psoriasis 206
Lichen planus and other 'interface dermatoses' 213
- 6 Infiltrative Disorders** 247
Introduction 247
Necrobiotic disorders 247
Sarcoidosis and other granulomatous infiltrates 251

Mastocytosis 253
Juvenile xanthogranuloma (naevoxanthoendothelioma) 255
Langerhans'-cell histiocytosis (histiocytosis X) 255
Amyloidosis 256
Lymphocytic infiltrates 258
Mucinous infiltrates 260

7 Bullous Diseases 263

Introduction 263
Congenital/inherited causes of blistering 263
Acquired causes of blistering 271

8 Systemic Disease and the Skin 285

Introduction 285
Skin changes associated with multiple pathologies 285
Skin changes associated with disease in a specific organ
or system 294
Skin changes caused by a pathophysiological process 309
Skin signs caused by drugs given for systemic or cutaneous
disease 319
The cutaneous effects of psychological disturbances 321

9 Disorders of Hair and Nails 325

Introduction 325
Disorders of hair 326
Disorders of the nails 334

10 Disorders of Pigmentation 339

Normal pigmentation 339
Hyperpigmentation 340
Acquired causes 342
Reduced or absent pigmentation 345

11 Genodermatoses 351

Introduction 351
Incontinentia pigmenti (Bloch-Sulzberger disease) 351
Incontinentia pigmenti achromians or hypomelanosis of Ito 353
Ectodermal dysplasias 354
Disorders of keratinization 355
Basal cell naevus syndrome and syndromes associated with
increased skin cancers 361
Neurofibromatosis 362
Tuberous sclerosis 363
Disorders of connective tissue 364
Pseudoxanthoma elasticum 365
Premature ageing syndromes 366
Skin manifestations of chromosomal disorders 366
Vascular disorders 367
Angiokeratoma corporis diffusum (Anderson-Fabry disease) 368
Syndromes with immune deficiency 368
Inherited syndromes in which skin changes accompany
systemic cancers 370
Genetic counselling and further management 371
