Pediatric Cardiology

for Practitioners

Myung K. Park

5th Edition

MOSBY
ELSEVIER

CONTENTS

Part I

Basic Tools in Routine Evaluation of Cardiac Patients

Chapter 1

History Taking	3
Gestational and Natal History	3
Postnatal History	4
Family History	7

Chapter 2

Physical Examination	9
Growth Pattern	9
Inspection	9
Palpation	15
Blood Pressure Measurement	17
Auscultation	23
Some Special Features of the Cardiac Examination of Neonates	38

Chapter 3

Electrocardiography	40
What Is the Vectorial Approach?	40
Comparison of Pediatric and Adult Electrocardiograms	43
Basic Measurements and Their Normal and Abnormal Values Necessary for Routine Interpretation of an Electrocardiogram	44
Atrial Hypertrophy	52
Ventricular Hypertrophy	52
Ventricular Conduction Disturbances	57
ST-Segment and T-Wave Changes	61

Chapter 4

Chest Roentgenography	66
Heart Size and Silhouette	66
Evaluation of Cardiac Chambers and Great Arteries	68
Pulmonary Vascular Markings	70
Systematic Approach	71

Chapter 5

Flow Diagrams	75
---------------------	----

Part II

Special Tools in Evaluation of Cardiac Patients

Chapter 6

Noninvasive Techniques	81
Echocardiography	81
Stress Testing	98
Long-term ECG Recording	105
Ambulatory Blood Pressure Monitoring	107

Chapter 7

Invasive Procedures	108
Cardiac Catheterization and Angiocardiology	108
Catheter Intervention Procedures	113

Part III

Pathophysiology

Chapter 8

Fetal and Perinatal Circulation	119
Fetal Circulation	119
Changes in Circulation after Birth	120
Premature Newborns	123

Chapter 9

Pathophysiology of Left-to-Right Shunt Lesions	125
Atrial Septal Defect	125
Ventricular Septal Defect	127
Patent Ductus Arteriosus	129
Endocardial Cushion Defect	130

Chapter 10

Pathophysiology of Obstructive and Valvular Regurgitation Lesions	133
Obstruction to Ventricular Output	133
Stenosis of Atrioventricular Valves	136
Valvular Regurgitant Lesions	137

Chapter 11

- Pathophysiology of Cyanotic
Congenital Heart Defects 140
 Clinical Cyanosis 140
 Common Cyanotic Heart Defects 145

Part IV**Specific Congenital Heart Defects***Chapter 12*

- Left-to-Right Shunt Lesions ... 161
 Atrial Septal Defect 161
 Ventricular Septal Defect 166
 Management 173
 Patent Ductus Arteriosus 175
 Patent Ductus Arteriosus in Preterm
 Neonates 178
 Complete Endocardial Cushion
 Defect 181
 Partial Endocardial Cushion Defect 187
 Partial Anomalous Pulmonary Venous
 Return 189

Chapter 13

- Obstructive Lesions 192
 Pulmonary Stenosis 192
 Aortic Stenosis 196
 Coarctation of the Aorta 205
 Interrupted Aortic Arch 213

Chapter 14

- Cyanotic Congenital Heart
 Defects 215
 Approach to a Cyanotic Neonate 215
 Complete Transposition of the Great
 Arteries 219
 Congenitally Corrected Transposition of
 the Great Arteries 230
 Tetralogy of Fallot 235
 Tetralogy of Fallot with Pulmonary
 Atresia (Pulmonary Atresia
 and Ventricular Septal Defect) 243
 Tetralogy of Fallot with Absent
 Pulmonary Valve 248
 Total Anomalous Pulmonary Venous
 Return 249
 Tricuspid Atresia 254
 Pulmonary Atresia with Intact
 Ventricular Septum 264
 Hypoplastic Left Heart Syndrome 269
 Ebstein's Anomaly 273
 Persistent Truncus Arteriosus 279
 Single Ventricle 283
 Double-Outlet Right Ventricle 287
 Heterotaxia (Atrial Isomerism, Splenic
 Syndromes) 293
 Persistent Pulmonary Hypertension of
 the Newborn 299

Chapter 15

- Vascular Ring 303
 Prevalence 303
 Pathology 303
 Clinical Manifestations 306
 Diagnosis 307
 Management 307

Chapter 16

- Chamber Localization and Cardiac
 Malposition 309
 Chamber Localization 309
 Dextrocardia and Mesocardia 312

Chapter 17

- Miscellaneous Congenital Cardiac
 Conditions 314
 Aneurysm of the Sinus of Valsalva 314
 Anomalous Origin of the Left Coronary
 Artery from the Pulmonary Artery
 (Bland-White-Garland Syndrome,
 ALCAPA Syndrome) 314
 Aortopulmonary Septal Defect 316
 Arteriovenous Fistula, Coronary 317
 Arteriovenous Fistula, Pulmonary 318
 Arteriovenous Fistula, Systemic 318
 Atrial Septal Aneurysm 319
 Cervical Aortic Arch 319
 Common Atrium 319
 Cor Triatriatum 319
 DiGeorge Syndrome 320
 Double-Chambered Right Ventricle 321
 Ectopia Cordis 322
 Hemitruncus Arteriosus 322
 Idiopathic Dilatation of the Pulmonary
 Artery 323
 Kartagener's Syndrome 323
 Parachute Mitral Valve 323
 Patent Foramen Ovale 323
 Pericardial Defect, Congenital 324
 Pseudocoarctation of the Aorta 325
 Pulmonary Artery Stenosis 325
 Scimitar Syndrome 326
 Systemic Venous Anomalies 326

Part V**Acquired Heart Disease***Chapter 18*

- Primary Myocardial Disease ... 331
 Hypertrophic Cardiomyopathy 332
 Infants of Diabetic Mothers 339
 Transient Hypertrophic Cardiomyopathy
 in Neonates 340
 Dilated or Congestive
 Cardiomyopathy 341
 Endocardial Fibroelastosis 344

Doxorubicin Cardiomyopathy	346	Hyperthyroidism: Congenital and Acquired	412
Carnitine Deficiency	347	Hypothyroidism: Congenital and Acquired	412
Restrictive Cardiomyopathy	348	Sickle Cell Anemia	413
Right Ventricular Dysplasia	349		
Noncompaction Cardiomyopathy	350		
Chapter 19			
Cardiovascular Infections	351	Part VI	
Infective Endocarditis	351	Arrhythmias and Atrioventricular Conduction Disturbances	
Myocarditis	360	Chapter 24	
Pericarditis	364	Cardiac Arrhythmias 417	
Constrictive Pericarditis	366	Rhythms Originating in the Sinus Node	417
Kawasaki Disease	367	Rhythms Originating in the Atrium	420
Lyme Carditis	376	Rhythms Originating in the Atrioventricular Node	427
Postpericardiotomy Syndrome	377	Rhythms Originating in the Ventricle	429
Postperfusion Syndrome	378	Long QT Syndrome	437
Human Immunodeficiency Virus Infection	379	Short QT Syndrome	443
Chapter 20			
Acute Rheumatic Fever	381	Brugada Syndrome	443
Prevalence	381	Chapter 25	
Causes	381	Disturbances of Atrioventricular Conduction 445	
Pathology	381	First-Degree Atrioventricular Block	445
Clinical Manifestations	382	Second-Degree Atrioventricular Block	445
Diagnosis	384	Third-Degree Atrioventricular Block	447
Differential Diagnosis	385	Atrioventricular Dissociation	448
Clinical Course	385	Chapter 26	
Management	385	Cardiac Pacemakers and Implantable Cardioverter-Defibrillators in Children 449	
Prognosis	387	ECGs of Artificial Cardiac Pacemakers	449
Prevention	387	Pacemaker Therapy in Children	450
Chapter 21			
Valvular Heart Disease	389	Implantable Cardioverter-Defibrillator Therapy	454
Mitral Stenosis	389	Part VII	
Mitral Regurgitation	393	Special Problems	
Aortic Regurgitation	395	Chapter 27	
Clinical Manifestations	396	Congestive Heart Failure 461	
Mitral Valve Prolapse	398	Definition	461
Chapter 22			
Cardiac Tumors	402	Causes	461
Prevalence	402	Pathophysiology of Congestive Heart Failure	463
Pathology	402	Diagnosis	464
Clinical Manifestations	403	Management	465
Management	406	Chapter 28	
Chapter 23			
Cardiovascular Involvement in Systemic Diseases	407	Systemic Hypertension 474	
Mucopolysaccharidoses	407	Definition	474
Systemic Lupus Erythematosus	408	Normative Blood Pressure Standards	475
Rheumatoid Arthritis	408		
Friedreich's Ataxia	409		
Muscular Dystrophy	409		
Myotonic Dystrophy	410		
Marfan Syndrome	411		
Acute Glomerulonephritis	412		

Causes	476		
Diagnosis and Workup	477		
Management	480		
Hypertensive Crisis	484		
<i>Chapter 29</i>			
Pulmonary Hypertension	485		
Definition	485		
Causes	485		
Physiology	486		
Pathogenesis	487		
Pathology	489		
Pathophysiology	490		
Clinical Manifestations	491		
Natural History	493		
Diagnosis	494		
Management	494		
Bronchopulmonary Dysplasia	496		
Diaphragmatic Hernia	497		
<i>Chapter 30</i>			
Child with Chest Pain	499		
Causes and Prevalence	499		
Clinical Manifestations	499		
Diagnostic Approach	505		
Management	507		
<i>Chapter 31</i>			
Syncope	508		
Prevalence	508		
Definition	508		
Causes	508		
Evaluation of a Child with Syncope	513		
Treatment	516		
Differential Diagnosis	517		
<i>Chapter 32</i>			
Palpitation	518		
Definition and Description	518		
Causes	518		
Evaluation	518		
Management	521		
<i>Chapter 33</i>			
Dyslipidemia and Other Cardiovascular Risk Factors	522		
Childhood Onset of Coronary Artery Disease	522		
Cardiovascular Risk Factors and the Metabolic Syndrome	523		
Dyslipidemia	526		
Other Risk Factors	540		
Practice of Preventive Cardiology	549		
<i>Chapter 34</i>			
Athletes with Cardiac Problems	552		
Sudden Unexpected Death in Young Athletes	552		
Preparticipation Screening	554		
Classification of Sports	556		
Eligibility Determination for Athletes with Cardiovascular Diseases	557		
Cardiac Arrhythmias and Sports	562		
Athletes with Systemic Hypertension	567		
<i>Chapter 35</i>			
Cardiac Transplantation	569		
Indications	569		
Selection of the Recipient	569		
Evaluation and Management of the Cardiac Donor	570		
Informed Consent from the Family and Recipient	571		
Operative Technique	571		
Early Postoperative Management	572		
Late Post-Transplantation Follow-up	576		
Prognosis	578		
Appendices			
<i>Appendix A</i>			
Miscellaneous	579		
<i>Appendix B</i>			
Blood Pressure Values	585		
<i>Appendix C</i>			
Cardiovascular Risk Factors	593		
<i>Appendix D</i>			
Normal Echocardiographic Values and Images	601		
<i>Appendix E</i>			
Drugs Used in Pediatric Cardiology	611		
Suggested Readings	631		
Index	645
