PNF in Practice

An Illustrated Guide
Third Edition

 Springer

Contents

1	Introduction to Proprioceptive Neuromuscular Facilitation	1	6	The Scapula and Pelvis	53
			6.1	Introduction	54
			6.2	Applications	54
2	Basic Procedures for Facilitation	5	6.3	Basic Procedures	54
2.1	Resistance	6	6.4	Scapular Diagonals	56
2.2	Irradiation and Reinforcement	7	6.4.1	Specific Scapula Patterns	56
2.3	Manual Contact	10	6.4.2	Specific Uses for Scapular Patterns	63
2.4	Body Position and Body Mechanics	11	6.5	Pelvic Diagonals	64
2.5	Verbal Stimulation (Commands)	11	6.5.1	Specific Pelvic Patterns	64
2.6	Vision	12	6.5.2	Specific Uses for Pelvic Patterns	72
2.7	Traction and Approximation	12	6.6	Symmetrical, Reciprocal and Asymmetrical Exercises	73
2.8	Stretch	13	6.6.1	Symmetrical-Reciprocal Exercise	73
2.9	Timing	14	6.6.2	Asymmetrical Exercise	74
2.10	Patterns	16			
3	Techniques	19	7	The Upper Extremity	77
3.1	Rhythmic Initiation	20	7.1	Introduction and Basic Procedures	78
3.2	Combination of Isotonics (described by Gregg Johnson and Vicky Saliba) ..	21	7.2	Flexion – Abduction – External Rotation	80
3.3	Reversal of Antagonists	23	7.2.1	Flexion – Abduction – External Rotation with Elbow Flexion	83
3.3.1	Dynamic Reversals (Incorporates Slow Reversal) ..	23	7.2.2	Flexion – Abduction – External Rotation with Elbow Extension	86
3.3.2	Stabilizing Reversals	26	7.3	Extension – Adduction – Internal Rotation	88
3.3.3	Rhythmic Stabilization	27	7.3.1	Extension – Adduction – Internal Rotation with Elbow Extension	90
3.4	Repeated Stretch (Repeated Contractions)	29	7.3.2	Extension – Adduction – Internal Rotation with Elbow Flexion	92
3.4.1	Repeated Stretch from Beginning of Range	29	7.4	Flexion – Adduction – External Rotation	94
3.4.2	Repeated Stretch Through Range	30	7.4.1	Flexion – Adduction – External Rotation with Elbow Flexion	96
3.5	Contract-Relax	31	7.4.2	Flexion – Adduction – External Rotation with Elbow Extension	98
3.5.1	Contract-Relax: Direct Treatment	31	7.5	Extension – Abduction – Internal Rotation	101
3.5.2	Contract-Relax: Indirect Treatment	33	7.5.1	Extension – Abduction – Internal Rotation with Elbow Extension	103
3.6	Hold-Relax	33	7.5.2	Extension – Abduction – Internal Rotation with Elbow Flexion	106
3.6.1	Hold-Relax: Direct Treatment	33	7.6	Thrust and Withdrawal Combinations	108
3.6.2	Hold-Relax: Indirect Treatment	34	7.6.1	Ulnar Thrust and Withdrawal	109
3.7	Replication	35	7.6.2	Radial Thrust and Withdrawal	109
3.8	PNF Techniques and Their Goals	35	7.7	Bilateral Arm Patterns	111
4	Patient Treatment	39	7.8	Changing the Patient's Position	112
4.1	Evaluation	40	7.8.1	Arm Patterns in a Side Lying Position	113
4.1.1	Evaluation of Areas of Activities	40	7.8.2	Arm Patterns Lying Prone on Elbows	113
4.1.2	Evaluation of Areas of Impairments and Activity Limitations	40	7.8.3	Arm Patterns in a Sitting Position	114
4.2	Hypothesis	41	7.8.4	Arm Patterns in the Quadruped Position	114
4.3	Tests for Causal Impairments and Activity Limitations	41	7.8.5	Arm Patterns in a Kneeling Position	115
4.4	Treatment Goals	41			
4.5	Treatment Planning and Treatment Design	42	8	The Lower Extremity	117
4.5.1	Specific Patient Needs	42	8.1	Introduction and Basic Procedures	118
4.5.2	Designing the Treatment	42	8.2	Flexion – Abduction – Internal Rotation	120
4.5.3	Direct and indirect Treatment	42	8.2.1	Flexion – Abduction – Internal Rotation with Knee Flexion	122
4.6	Assessment	43			
4.7	Re-Test for Causal Impairments and Activity Limitations	44			
4.8	Treatment Examples	44			
5	Patterns of Facilitation	47			

8.2.2	Flexion – Abduction – Internal Rotation with Knee Extension.....	124	11.5.4	Quadruped	203
8.3	Extension – Adduction – External Rotation	126	11.5.5	Kneeling	208
8.3.1	Extension – Adduction – External Rotation with Knee Extension.....	129	11.5.6	Half-Kneeling	212
8.3.2	Extension – Adduction – External Rotation with Knee Flexion	132	11.5.7	From Hands-and-Feet Position (Arched Position on All Fours) to Standing Position and back to Hands-and-Feet Position	214
8.4	Flexion – Adduction – External Rotation.....	133	11.5.8	Exercise in a Sitting Position	215
8.4.1	Flexion – Adduction – External Rotation with Knee Flexion	135	11.5.9	Bridging	220
8.4.2	Flexion – Adduction – External Rotation with Knee Extension.....	137	11.6	Patient Cases in Mat Activities	223
8.5	Extension – Abduction – Internal Rotation	139	12	Gait Training	233
8.5.1	Extension – Abduction – Internal Rotation with Knee Extension.....	141	12.1	The Importance of Walking	234
8.5.2	Extension – Abduction – Internal Rotation with Knee Flexion	143	12.2	Introduction: Basics of Normal Gait	234
8.6	Bilateral Leg Patterns	144	12.2.1	The Gait Cycle.....	234
8.7	Changing the Patient’s Position	147	12.2.2	Trunk and Lower Extremity Joint Motion in Normal Gait	235
8.7.1	Leg Patterns in a Sitting Position.....	147	12.2.3	Muscle Activity During Normal Gait (Perry 1992) ..	236
8.7.2	Leg Patterns in a Prone Position.....	149	12.3	Gait Analysis: Observation and Manual Evaluation.	238
8.7.3	Leg Patterns in a Side Lying Position	151	12.4	The Theory of Gait Training	239
8.7.4	Leg Patterns in a Quadruped Position	151	12.5	The Procedures of Gait Training.....	240
8.7.5	Leg Patterns in the Standing Position	154	12.5.1	Approximation and Stretch	241
9	The Neck.....	155	12.5.2	Using Approximation and Stretch Reflex	242
9.1	Introduction and Basic Procedures.....	156	12.6	Practical Gait Training	242
9.2	Indications.....	158	12.6.1	Preparatory Phase.....	242
9.3	Flexion to the Left, extension to the Right.....	158	12.6.2	Standing Up and Sitting Down.....	249
9.3.1	Flexion/Left Lateral Flexion/Left Rotation	158	12.6.3	Standing.....	252
9.3.2	Extension/Right Lateral Flexion/Right Rotation...	162	12.6.4	Walking.....	257
9.4	Neck for Trunk.....	164	12.6.5	Other Activities	262
9.4.1	Neck for Trunk Flexion and Extension	164	12.7	Patient Cases in Gait Training	265
9.4.2	Neck for Trunk Lateral Flexion.....	165	13	Vital Functions	271
10	The Trunk	169	13.1	Introduction	272
10.1	Introduction and Basic Procedures.....	170	13.1.1	Stimulation and Facilitation.....	272
10.2	Chopping and Lifting.....	171	13.2	Facial Muscles.....	272
10.2.1	Chopping.....	171	13.3	Tongue Movements	283
10.2.2	Lifting	174	13.4	Swallowing	284
10.3	Bilateral Leg Patterns for the Trunk.....	177	13.5	Speech Disorders.....	284
10.3.1	Bilateral Lower Extremity Flexion, with Knee Flexion, for Lower Trunk Flexion (Right)	177	13.6	Breathing	285
10.3.2	Bilateral Lower Extremity Extension, with Knee Extension, for Lower Trunk Extension (Left) ..	179	14	Activities of Daily Living	289
10.3.3	Trunk Lateral Flexion	180	Glossary.....	297	
10.4	Combining Patterns for the Trunk.....	182			
11	Mat Activities	185			
11.1	Introduction: Why Do Mat Activities?.....	186			
11.2	Treatment Goals.....	186			
11.3	Basic Procedures	187			
11.4	Techniques.....	187			
11.5	Mat Activities	187			
11.5.1	Rolling.....	188			
11.5.2	Prone on Elbows (Forearm Support)	197			
11.5.3	Side-Sitting	200
