The
ICU
Book
THIRD EDITION

Paul L. Marino

Lippincott Williams & Wilkins
a Wolters Kluwer business

SECTION I

Basic Science Review

- | | | |
|---|-------------------------------------|----|
| 1 | Circulatory Blood Flow | 3 |
| 2 | Oxygen and Carbon Dioxide Transport | 21 |

SECTION II

Preventive Practices in the Critically Ill

- | | | |
|---|------------------------------|----|
| 3 | Infection Control in the ICU | 41 |
| 4 | Alimentary Prophylaxis | 63 |
| 5 | Venous Thromboembolism | 81 |

SECTION III

Vascular Access

- | | | |
|---|----------------------------------|-----|
| 6 | Establishing Venous Access | 107 |
| 7 | The Indwelling Vascular Catheter | 129 |

SECTION IV

Hemodynamic Monitoring

- | | | |
|----|--|-----|
| 8 | Arterial Blood Pressure | 151 |
| 9 | The Pulmonary Artery Catheter | 163 |
| 10 | Central Venous Pressure and Wedge Pressure | 181 |
| 11 | Tissue Oxygenation | 193 |

SECTION V

Disorders of Circulatory Flow

- | | | |
|----|---------------------------------------|-----|
| 12 | Hemorrhage and Hypovolemia | 211 |
| 13 | Colloid and Crystalloid Resuscitation | 233 |
| 14 | Acute Heart Failure Syndromes | 255 |

15	Cardiac Arrest	277
16	Hemodynamic Drug Infusions	297

SECTION VI

Critical Care Cardiology

17	Early Management of Acute Coronary Syndromes	317
18	Tachyarrhythmias	343

SECTION VII

Acute Respiratory Failure

19	Hypoxemia and Hypercapnia	367
20	Oximetry and Capnography	385
21	Oxygen Inhalation Therapy	403
22	Acute Respiratory Distress Syndrome	419
23	Severe Airflow Obstruction	437

SECTION VIII

Mechanical Ventilation

24	Principles of Mechanical Ventilation	457
25	Modes of Assisted Ventilation	473
26	The Ventilator-Dependent Patient	491
27	Discontinuing Mechanical Ventilation	511

SECTION IX

Acid-Base Disorders

28	Acid-Base Interpretations	531
29	Organic Acidoses	547
30	Metabolic Alkalosis	565

SECTION X

Renal and Electrolyte Disorders

31	Oliguria and Acute Renal Failure	579
32	Hypertonic and Hypotonic Conditions	595
33	Potassium	611
34	Magnesium	625
35	Calcium and Phosphorous	639

SECTION XI

Transfusion Practices in Critical Care

36	Anemia and Red Blood Cell Transfusions in the ICU	659
37	Platelets in Critical Illness	681

SECTION XII

Disorders of Body Temperature

38	Hyperthermia and Hypothermia Syndromes	697
39	Fever in the ICU	713

SECTION XIII

Inflammation and Infection in the ICU

40	Infection, Inflammation, and Multiorgan Injury	737
41	Pneumonia in the ICU	749
42	Sepsis from the Abdomen and Pelvis	769
43	The Immunocompromised Patient	783
44	Antimicrobial Therapy	801

SECTION XIV

Nutrition and Metabolism

45	Metabolic Substrate Requirements	823
46	Enteral Tube Feeding	841
47	Parenteral Nutrition	859
48	Adrenal and Thyroid Dysfunction	871

SECTION XV

Critical Care Neurology

49	Analgesia and Sedation	885
50	Disorders of Mentation	909
51	Disorders of Movement	927
52	Stroke and Related Disorders	943

SECTION XVI

Toxic Ingestions

53	Pharmaceutical Toxins & Antidotes	963
----	-----------------------------------	-----

SECTION XVII

Appendices

1	Units and Conversions	983
2	Selected Reference Ranges	989
3	Clinical Scoring Systems	997

	Index	1007
--	-------	------
