RAGOSTA

textbook of **CLINICAL**
HEMODYNAMICS

Table of Contents

Chapter 1

Introduction to Hemodynamic Assessment in the Cardiac Catheterization Laboratory 1

MICHAEL RAGOSTA, MD

Chapter 2

Normal Waveforms, Artifacts, and Pitfalls..... 16

MICHAEL RAGOSTA, MD

Chapter 3

Cardiac Outputs and Shunts 38

VISHAL ARORA, MD

Chapter 4

Mitral Valve Disorders..... 50

MICHAEL RAGOSTA, MD

Chapter 5

Aortic Valve Disease 68

MICHAEL RAGOSTA, MD

Chapter 6

Hypertrophic Cardiomyopathy and Related Conditions 91

MICHAEL RAGOSTA, MD

Chapter 7

Right-Sided Heart Disorders: Hemodynamics of the Tricuspid and Pulmonic Valves and Pulmonary Hypertension..... 108

MICHAEL RAGOSTA, MD

Chapter 8

Pericardial Disease and Restrictive Cardiomyopathy..... 123

MICHAEL RAGOSTA, MD

Chapter 9

Shock, Heart Failure, and Related Disorders..... 148

MICHAEL RAGOSTA, MD

Chapter 10

Complications of Acute Myocardial Infarction..... 164

BRANDON BROWN, MD

Chapter 11

Congenital Heart Disease..... 178

RAJAN A.G. PATEL, MD, and D. SCOTT LIM, MD

Chapter 12

Coronary Hemodynamics..... 199

MICHAEL RAGOSTA, MD

Chapter 13

Advanced Hemodynamic Assessment of Ventricular Function.. 219

D. SCOTT LIM, MD, and HOWARD P. GUTGESELL, MD

Chapter 14

Miscellaneous Hemodynamic Conditions..... 226

MICHAEL RAGOSTA, MD

Index..... 239
