Contents

Preface	<i>v</i>
Contributors	<i>xi</i>
About the Editors	<i>xv</i>

I. BACKGROUND

1 Stone Nomenclature and History of Instrumentation for Urinary Stone Disease <i>Viraj A. Master, Maxwell V. Meng, and Marshall L. Stoller</i>	<i>3</i>
2 Epidemiology and Incidence of Stone Disease <i>Joseph E. Dallera and Paramjit S. Chandhoke</i>	<i>27</i>
3 The Genetics of Stone Disease <i>Berenice Y. Reed and William L. Gitomer</i>	<i>35</i>
4 Theories of Stone Formation <i>Hsiao-Jen Chung, Harrison M. Abrahams, Maxwell V. Meng, and Marshall L. Stoller</i>	<i>55</i>
5 Structure and Compositional Analysis of Kidney Stones <i>Ian Mandel and Neil Mandel</i>	<i>69</i>

II. METABOLISM

6 Calcium Physiology <i>G. Bennett Stackhouse and Marshall L. Stoller</i>	<i>85</i>
7 Management of Patients With Hyperoxaluria <i>Ojas Shah, Ross P. Holmes, and Dean G. Assimos</i>	<i>103</i>
8 Renal Acid–Base Balance and Renal Tubular Acidosis <i>Andrew I. Chin</i>	<i>121</i>
9 Urinary Stone Inhibitors: <i>Citrate and Magnesium</i> <i>Harrison M. Abrahams, Maxwell V. Meng, and Marshall L. Stoller</i>	<i>157</i>
10 Modulators of Crystallization of Stone Salts <i>Saeed R. Khan and Dirk J. Kok</i>	<i>175</i>
11 Hormonal Influences on Nephrolithiasis <i>Colonel Noah S. Schenkman and Major C. Gerry Henderson</i>	<i>221</i>
12 Associated Systemic Disease: <i>Bowel and Bones</i> <i>Michael E. Moran</i>	<i>237</i>

13	Medical Evaluation of Stone Disease <i>Clarita V. Odvina and Charles Y. C. Pak</i>	259
14	Pharmacologic Prophylaxis of Calcium Stones <i>Yeh Hong Tan and Glenn M. Preminger</i>	269
15	Diet and Urolithiasis <i>William K. Johnston, III and Roger K. Low</i>	285
16	Uric Acid Urolithiasis <i>Bodo E. Knudsen, Darren T. Beiko, and John D. Denstedt</i>	299
17	Struvite Stones <i>D. Brooke Johnson and Margaret S. Pearle</i>	309
18	Cystine Stone Disease <i>Bijan Shekarriz</i>	327
19	Urinary Stones of Unusual Etiology <i>Patrick S. Lowry and Stephen Y. Nakada</i>	345

III. PRESENTATION AND EVALUATION

20	Imaging of Urinary Stone Disease <i>Richard S. Breiman and Fergus V. Coakley</i>	371
21	Physician Safety <i>Ronald M. Yang and Gary C. Bellman</i>	403
22	Treatment of Acute Renal Colic <i>Albert M. Ong and Thomas W. Jarrett</i>	415
23	Anatomical Considerations in Urinary Stone Disease <i>Louis Eichel and Ralph V. Clayman</i>	433

IV. TREATMENT

24	Conservative Management of Ureteral Calculi <i>Christopher J. Kane</i>	457
25	Ureteral Stents <i>John S. Lam and Mantu Gupta</i>	465
26	Anesthetic Considerations for Extracorporeal Shockwave Lithotripsy, Percutaneous Nephrolithotomy, and Laser Lithotripsy <i>Mark Ancheta and Daniel Swangard</i>	495
27	Complications of Urinary Stone Surgery <i>Ruben Urena, Freddy Mendez-Torres, and Raju Thomas</i>	511
28	Extracorporeal Shockwave Lithotripsy: <i>Patient Selection and Outcomes</i> <i>Christopher S. Ng, Gerhard J. Fuchs, and Stevan B. Stroom</i>	555

29	Indications and Outcomes of Ureteroscopy for Urinary Stones <i>Matthew T. Gettman and Joseph W. Segura</i>	571
30	Ureteroscopy: <i>Technical Aspects</i> <i>Assaad El-Hakim, Beng Jit Tan, and Arthur D. Smith</i>	589
31	Percutaneous Nephrolithotomy: <i>Indications and Outcomes</i> <i>Paul K. Pietrow</i>	609
32	Percutaneous Nephrolithotomy: <i>Technical Aspects</i> <i>Sangtae Park, Maxwell V. Meng, and Marshall L. Stoller</i>	621
33	Open Stone Surgery <i>Elizabeth J. Anoaia and Martin I. Resnick</i>	639
34	Laparoscopic Approach to Urinary Stone Disease <i>Anup P. Ramani and Inderbir S. Gill</i>	651
35	Stones of the Urethra, Prostate, Seminal Vesicle, Bladder, and Encrusted Foreign Bodies <i>Bradley F. Schwartz</i>	661
