Burkhart's View of the Shoulder A Cowboy's Guide to Advanced Shoulder Arthroscopy

Stephen S.
Burkhart

Ian K.Y.
Lo

Paul C.
Brady

DVD includes
4 hours of surgical
procedures.

Lippincott Williams & Wilkins
a Wolters Kluwer business

Contents

Preface ix

Forewords xv, xvii

James C. Esch and Stephen J. Snyder

Messages from the Fellows xix

PART I. THE BASIS OF COWBOYIN'

There Ain't a Horse That Can't Be Rode, There Ain't a Man That Can't Be Thrown

- 1 Visualization 3
- 2 Angle of Approach 7
- 3 Creating a Stable Construct 33
- 4 Understanding and Recognizing Pathology 53
- 5 The Tough Stuff: Massive Contracted Adhesed Rotator Cuff Tears, Subscapularis Tears, and Biceps Pathology 110
- 6 Exposing the Hidden Arthroscopic Landmarks 147
- 7 Insurmountable Problems—Bone Deficiency 156
- 8 Gaining Speed and Tricks of the Trade 169
- 9 Order of Steps 191
- 10 Rotator Cuff Tear Patterns: Repairing a Tear the Way It Ought to Be 193
- 11 Postoperative Rehabilitation 203

PART II. PLAYIN' WITH FIRE

A Cowboy's Guide to Cookin' (Workin' Smooth), Smokin' (Workin' Fast), and Brandin' (Leavin' Your Mark)

- 12 Operating Room Set-up 215
- 13 Instability 217

- A. Arthroscopic Bankart Repair 217
- B. Arthroscopic Latarjet Procedure 220
- C. Arthroscopic Treatment of Multidirectional Instability 220

- D. Nonengaging Hill-Sachs Lesion 222
- E. Open Latarjet Reconstruction 223
- F. Posterior Bankart and SLAP Repair 226
- G. Repair of a Bony Bankart Lesion 227
- H. Repair of Reverse Humeral Avulsion of Glenohumeral Ligament (RHAGL) Lesion 230
- I. Repair of Triple Labral Lesion 232
- J. Arthroscopic Repair of Humeral Avulsion of Glenohumeral Ligament (HAGL) Lesion 234

14 SLAP Repair 236

15 Subacromial Procedures (Non-cuff) 239

- A. Arthroscopic Acromioplasty 239
- B. Arthroscopic Distal Clavicle Excision 241
- C. Coplaning of Distal Clavicle 242
- D. Os Acromiale Excision 243

16 Stiffness 245

- A. Capsular Release for Adhesive Capsulitis 245
- B. Capsular Release for Postoperative Stiffness after Rotator Cuff Repair 246
- C. Manipulation Under Anesthesia 247

17 Rotator Cuff 249

- A. Completion of a PASTA Lesion to a Full-Thickness Cuff Tear 249
- B. Coracoplasty with Nonretracted Subscapularis Tendon 250
- C. Double-Pulley Technique of Double-Row Repair 251
- D. Double-Row Rotator Cuff Repair 252
- E. L-Shaped Tear Assessment 254
- F. Margin Convergence to Bone in a Reverse-L Tear 255
- G. Massive Adhesed Rotator Cuff Tear: Repair by Modified Double Interval Slide 257
- H. PASTA Repair: One Anchor Repair 261
- I. Repair of a Partial (Upper) Subscapularis Tendon Tear 263
- J. Repair of Bursal Sided Rotator Cuff Tear 265
- K. Repair of Complete Subscapularis Tendon Tear 266

- L. Repair of Interstitial Rotator Cuff Tear 268
- M. Reverse L-Shaped Tear: Evaluation and Repair 269
- N. Small Bursal-Surface Crescent Tear with Single Lateral Row Fixation 269
- O. The “Bubble” Sign: A Method of Detecting an Interstitial Rotator Cuff Tear 270
- P. The “Triple Double” Technique of Rotator Cuff Footprint Reconstruction 271
- Q. The Roller-Wringer Phenomenon 274
- R. The “Shoestring” Technique of Knotless Lateral Row Fixation 274
- S. TuberoPlasty: Arthroscopic Treatment of Greater Tuberosity Malunion 275
- T. Margin Convergence to Bone: Double-Row Repair of a Small U-Shaped Tear 277
- U. Double Interval Slide Technique 279
- V. Routine Margin Convergence Technique 281
- W. Double-Row Margin Convergence to Bone 282
- X. Two Anchor Transtendon PASTA Repair via the Double-Pulley Technique 284
- Y. Anterior Interval Slide in Continuity 286
- Z. Anterior Interval Slide 287

18 Biceps 289

- A. Arthroscopic-Assisted Biceps Tenodesis for Retracted Biceps Tendon Tear: The Cobra Procedure 289
- B. Biceps Tenodesis without Supraspinatus Tendon Tear 291
- C. Biceps Tenodesis with Torn Supraspinatus Tendon 293

19 Tricks and Tips 294

- A. Arthroscopic Knot-Tying Using the Sixth Finger Knot Pusher 294
- B. Anchor Removal from Glenoid Using OATS Harvester 297
- C. Anchor Removal from Greater Tuberosity Using OATS Harvester 298
- D. Arthroscopic Suprascapular Nerve Release at the Suprascapular Notch 298
- E. Compaction Bone Grafting Using OATS Harvester 301
- F. Exposing the Scapular Spine 302
- G. Salvaging a Loose Anchor by the “Buddy Anchor” Technique 303
- H. The “Suture Weave” Technique of Reloading an Anchor 304
- I. Pull the Right One: How to Ensure That You Don’t Unload a Suture Anchor 305

20. Assorted Conditions 306

- A. Calcific Tendinitis 306
- B. Minicapsular Plication in the Overhead Athlete 307
- C. Stretching and Strengthening Exercises: Patient Education Video 308

21. The Future 309

- A. BioForkLok Bankart Repair 309
- B. FiberChain Plus Swivel-Lok Double-Row Rotator Cuff Repair 309
