# IMPORTED SKIN DISEASES

ELSEVIER

# Contents

## Editors and authors 5

- 1 **Introduction** 21
  - References 22
  
- 2 **Pigmentary disorders in black skin** 23
  - 2.1 Introduction 23
  - 2.2 Normal variations in ethnic skin 23
  - 2.3 Abnormal hyper- and hypopigmentations 27
  - References 32
  
- 3 **Coloured versus white skin** 35
  - 3.1 Introduction 35
  - 3.2 Erythema 35
  - 3.3 Pigment changes 36
  - 3.4 Cohesion 38
  - 3.5 Keloid formation 40
  - 3.6 Pigmentation and skin cancer 40
  - 3.7 Other differences 41
  - 3.8 Hair 42
  - References 43
  
- 4 **Influence of old and new environment on the skin** 45
  - 4.1 Introduction 45
  - 4.2 Environment, adaptation and skin disorders 46
  - 4.3 Skin disorders in immigrants 47
    - 4.3.1 Dry skin and dry eczema 47
    - 4.3.2 Chickenpox (varicella) 49
    - 4.3.3 Perniosis (chilblains) 49

- 4.3.4 Psoriasis 50
- 4.4 Skin disorders in tourists 51
- 4.4.1 Miliaria 51
- 4.4.2 Sunburn (dermatitis solaris) 52
- References 53

## 5 **Fungal infections** 55

- 5.1 Introduction 55
- 5.2 Superficial mycoses 56
- 5.3 Subcutaneous mycoses 58
- 5.3.1 Sporotrichosis 59
- 5.3.2 Mycetoma (maduromycosis, madura foot) 60
- 5.3.3 Chromoblastomycosis (chromomycosis) 64
- 5.3.4 Phaeohyphomycosis (phaeomycotic cyst, cystic chromomycosis) 65
- 5.3.5 Other subcutaneous infections 66
- 5.4 Systemic mycoses 66
- 5.4.1 Histoplasmosis 66
- References 70

## 6 **Mycobacterial infections** 73

- 6.1 Introduction 73
- 6.2 Tuberculosis 74
- 6.2.1 Introduction 74
- 6.2.2 Epidemiology 74
- 6.2.3 Clinical picture 74
- 6.2.4 Treatment 80
- 6.3 Mycobacterium marinum infection (swimming pool granuloma) 81
- 6.3.1 Introduction 81
- 6.3.2 Epidemiology 81
- 6.3.3 Clinical picture 81
- 6.3.4 Diagnosis 81
- 6.3.5 Treatment 82
- 6.4 Mycobacterium kansasii infections 82
- 6.4.1 Epidemiology 82
- 6.4.2 Clinical picture 82
- 6.5 Mycobacterium scrofulaceum infections 82
- 6.5.1 Epidemiology 82
- 6.5.2 Clinical picture 82
- 6.6 Mycobacterium hemophilum infections 82
- 6.6.1 Epidemiology 82

- 6.6.2 Clinical picture 83
- 6.7 Mycobacterium fortuitum infections 83
  - 6.7.1 Epidemiology 83
  - 6.7.2 Clinical picture 83
- 6.8 Mycobacterium chelonae-abscessus infections 83
  - 6.8.1 Epidemiology 83
  - 6.8.2 Clinical picture 83
  - 6.8.3 Treatment 83
- 6.9 Mycobacterium szulgai infections 83
  - 6.9.1 Epidemiology 83
  - 6.9.2 Clinical picture 84
- 6.10 Mycobacterium avium-intracellulare infections 84
  - 6.10.1 Epidemiology 84
  - 6.10.2 Clinical picture 84
- 6.11 Treatment of cutaneous infections by atypical mycobacteria in general 84
- 6.12 General comments 85
- 6.13 Cutaneous mycobacterial infections and immune suppression 86
- References 86

## **7 Leprosy 89**

- 7.1 Introduction 89
- 7.2 Epidemiology 89
- 7.3 Clinical spectrum 91
- 7.4 Diagnosis and classification 94
- 7.5 Laboratory tests 96
- 7.6 Diagnosis of reactions 97
- 7.7 Antimycobacterial treatment 99
- 7.8 Treatment of reactions 99
- 7.9 Rehabilitation and prevention 101
- References 101

## **8 Leprosy: disability and rehabilitation 103**

- 8.1 Introduction 103
- 8.2 Terminology and definitions 103
- 8.3 Impairments related to the disease and nerve function impairments 104
- 8.4 Conclusion 114
- References 115

## **9 Buruli ulcer** 117

- 9.1 Introduction 117
- 9.2 Epidemiology 117
  - 9.2.1 Geographic distribution, incidence and prevalence 117
  - 9.2.2 Reservoir(s) 118
  - 9.2.3 Mode(s) of transmission 119
- 9.3 Clinical picture 120
  - 9.3.1 Infection vs disease 120
  - 9.3.2 The disease 121
- 9.4 Diagnostic procedures 125
- 9.5 Treatment 127
- 9.6 Prevention 128
- 9.7 Conclusion 128
- References 129

## **10 Ulcerating pyoderma** 131

- 10.1 Introduction 131
- 10.2 Epidemiology 132
- 10.3 Clinical aspect 133
- 10.4 Diagnosis 135
- 10.5 Treatment 136
- References 137

## **11 Fever and rash** 139

- 11.1 Dengue 139
  - 11.1.1 Introduction 139
  - 11.1.2 Epidemiology: geographic distribution, mode of infection 139
  - 11.1.3 Clinical picture 141
  - 11.1.4 Pathogenesis 141
  - 11.1.5 Diagnosis 142
  - 11.1.6 Treatment 143
  - 11.1.7 Prevention and control 143
- 11.2 Rickettsioses 143
  - 11.2.1 Introduction 143
  - 11.2.2 Clinical picture, epidemiology 144
  - 11.2.3 Diagnosis 148
  - 11.2.4 Treatment 148
  - 11.2.5 Prevention 148
- 11.3 Migratory swellings 148
  - 11.3.1 Introduction 148

11.3.2 Gnathostomiasis 148

11.3.3 Loiasis 149

References 151

## **12 Sexually transmitted infections 153**

12.1 Introduction – definition 153

12.2 Epidemiology 154

12.3 Mode of infection 156

12.4 Clinical picture, diagnostic procedures for STI 157

12.4.1 Syphilis 158

12.4.2 Herpes genitalis 159

12.4.3 Chancroid 160

12.4.4 Lymphogranuloma venereum 160

12.4.5 Granuloma inguinale 161

12.4.6 Gonorrhoea 161

12.4.7 Non-gonococcal urethritis(NGU) and Chlamydia trachomatis 164

12.4.8 Chlamydial genital infection 164

12.4.9 Causes of vaginal discharge 165

12.4.10 Candidosis 165

12.4.11 STD's on the skin and mucous membranes 166

12.4.12 Molluscum contagiosum 167

12.4.13 Scabies 167

12.4.14 Pediculosis pubis 167

12.5 Treatment of STI 167

12.5.1 Principles of treatment 167

12.6 Prevention 170

References 170

## **13 Endemic treponematoses 171**

13.1 Introduction 171

13.2 Clinical picture 173

13.2.1 Yaws 174

13.2.2 Endemic syphilis 175

13.2.3 Pinta 176

13.3 Laboratory tests 177

13.4 Treatment 178

13.5 Conclusion 178

References 179

## **14 American cutaneous leishmaniasis 181**

- 14.1 Introduction 181
- 14.2 Epidemiology 181
- 14.3 Etiology and pathogenesis 182
- 14.4 Immunologic response 183
- 14.5 Clinical features 184
  - 14.5.1 Localized cutaneous leishmaniasis 185
  - 14.5.2 Mucocutaneous leishmaniasis 186
  - 14.5.3 Anergic diffuse cutaneous leishmaniasis 187
  - 14.5.4 Borderline disseminated cutaneous leishmaniasis 187
- 14.6 Differential diagnosis 188
- 14.7 Diagnosis 188
- 14.8 Prophylaxis 190
- 14.9 Treatment 190
- References 191

## **15 Leishmaniasis: old world 193**

- 15.1 Introduction 193
- 15.2 Epidemiology 194
  - 15.2.1 *L. major* 194
  - 15.2.2 *L. tropica* 194
  - 15.2.3 *L. aethiopica* 195
  - 15.2.4 *L. donovani donovani* and *L. donovani infantum* 196
  - 15.2.5 PKDL 197
- 15.3 Epidemiology, geographic distribution, etiology and mode of infection in old world cutaneous leishmaniasis 198
- 15.4 Clinical picture 200
  - 15.4.1 Localised cutaneous simple leishmaniasis 200
  - 15.4.2 Disseminated and complex cutaneous leishmaniasis 202
  - 15.4.3 Lupoid or recidivans leishmaniasis 202
  - 15.4.4 Diffuse cutaneous anergic leishmaniasis 203
  - 15.4.5 PKDL 203
- 15.5 Differential clinical diagnosis 203
- 15.6 Diagnostic procedures 203
- 15.7 Treatment 205
- 15.8 Prevention 207
- References 207

## **16 Onchocerciasis / Filariasis 209**

- 16.1 General 209

- 1514882
- 16.1.1 Introduction 209
  - 16.1.2 Epidemiology 209
  - 16.1.3 Mode of infection 211
  - 16.1.4 Clinical picture 212
  - 16.2 Onchocerciasis 212
    - 16.2.1 Clinical picture 212
    - 16.2.2 Diagnostic procedures 216
    - 16.2.3 Treatment 218
    - 16.2.4 Prevention 218
  - 16.3 Lymphatic filariasis 219
    - 16.3.1 Introduction 219
    - 16.3.2 Clinical picture 220
    - 16.3.3 Diagnostic procedures 221
    - 16.3.4 Treatment 221
    - 16.3.5 Prevention 222
  - 16.4 Loiasis 222
    - 16.4.1 Clinical picture 222
    - 16.4.2 Diagnostic procedures 223
    - 16.4.3 Treatment 223
    - 16.4.4 Prevention 224
  - 16.5 Mansonelliasis 224
    - 16.5.1 Clinical picture 224
    - 16.5.2 Diagnostic procedures 224
    - 16.5.3 Treatment 224
  - References 224

## 17 *Schistosomiasis* 227

- 17.1 Introduction 227
- 17.2 Life cycle and epidemiology 227
- 17.3 Clinical features 229
  - 17.3.1 Cercarial dermatitis 229
  - 17.3.2 Urticarial reactions during the Katayama syndrome (Katayama fever) 230
  - 17.3.3 Ectopic schistosomiasis 230
- 17.4 Treatment 232
- References 232

## 18 *Tungiasis* 233

- 18.1 Introduction 233
- 18.2 Epidemiology: geographic distribution, mode of infection 233
- 18.3 Clinical picture 235
- 18.4 Diagnosis 239

18.5 Treatment and prevention 240  
References 241

**19 Creeping eruption (*cutaneous larva migrans*) 243**

19.1 Introduction 243  
19.2 Epidemiology: geographic distribution, mode of infection 243  
19.3 Clinical picture 245  
19.4 Diagnosis 246  
19.5 Treatment and prevention 249  
References 250

**20 Myiasis 251**

20.1 Introduction 251  
20.2 Myiasis-producing diptera, geographical distribution and mode of infection 252  
20.3 Clinical features 255  
20.4 Diagnosis 256  
20.5 Treatment 256  
References 258

**21 Persistent insect bites 259**

21.1 Introduction 259  
21.2 Epidemiology 259  
21.3 Pathogenesis 260  
21.4 Clinical picture 261  
21.5 Treatment and prevention 263  
References 266

**22 Beetle dermatitis 269**

22.1 Introduction 269  
22.2 Epidemiology and geographic distribution of beetles inducing skin reactions 271  
22.2.1 Meloidae 271  
22.2.2 Oedemeridae 271  
22.2.3 Staphylinidae 271  
22.2.4 Adepagan beetles 272  
22.3 Pathomechanisms and clinical appearance of beetle dermatitis 273  
22.3.1 Meloidae, Oedemeridae, Staphylinidae 273  
22.3.2 Meloidae, Oedemeridae 274  
22.3.3 Staphylinidae 274  
22.4 Diagnostic procedures 275

22.5 Prevention and treatment 276  
References 277

## **23 Aquatic skin disorders 279**

23.1 Introduction 279  
23.2 Cnidarian envenomations 280  
23.3 Sponge dermatitis 284  
23.3 Seaweed dermatitis 284  
23.5 Primary infections 284  
23.6 Secondary infections 285  
23.7 Venomous and non-venomous fish stings and wounds 287  
23.7.1 Sting rays 287  
23.7.2 Barracudas (*Sphyraena* spp.) and moray eels 287  
23.7.3 Echinoderm (sea urchins, star fish) injuries 288  
References 288  
General references 289
