Contents

List of contributors	vii
Preface	xi
Foreword	xiii
Color section	xv
Section 1 – Clinical data	1
1 The spectrum of motor neuron disorders <i>Brian Murray, Hiroshi Mitsumoto</i>	3
2 Epidemiology of amyotrophic lateral sclerosis <i>Lorene M Nelson, Valerie McGuire</i>	25
Section 2 – Functional studies	43
3 Neuroimaging in amyotrophic lateral sclerosis <i>Martin R Turner, Victoria Williams, Camilla Blain, Derek Jones, Blaz Koritnik, P Nigel Leigh</i>	45
4 Motor unit number estimation in amyotrophic lateral sclerosis <i>Devanand Jillapalli, Jeremy M Shefner</i>	69
5 The corticomotoneuronal system in amyotrophic lateral sclerosis <i>Markus Weber</i>	83
6 Conventional neurophysiology in amyotrophic lateral sclerosis <i>Mamede de Carvalho, Michael Swash</i>	105
7 The neuropsychology of amyotrophic lateral sclerosis <i>Jennifer Murphy, Cathy Lomen-Hoerth</i>	125

Section 3 – Genetics of amyotrophic lateral sclerosis and related disorders	139
8 Familial motor neuron diseases other than amyotrophic lateral sclerosis <i>Alice Brockington, Pamela J Shaw</i>	141
9 Amyotrophic lateral sclerosis genetics with Mendelian inheritance <i>Peter M Andersen</i>	187
10 Modifying genes in amyotrophic lateral sclerosis <i>Claire L Simpson, Ammar Al-Chalabi</i>	209
11 From genetic defects to molecular pathogenesis of memory and movement disorders <i>William H Stoothoff, Bradley T Hyman</i>	225
Section 4 – Pathogenic mechanisms	239
12 Transgenic mouse and mutagenesis models <i>Ludo Van Den Bosch, Wim Robberecht</i>	241
13 Apoptotic cell death pathways in amyotrophic lateral sclerosis: a review <i>Piera Pasinelli, Robert H Brown Jr</i>	257
14 Amyotrophic lateral sclerosis and neurodegeneration: possible insights from the molecular biology of aging <i>Anne-Marie A Wills, Robert H Brown Jr</i>	269
15 Neurotrophic factors <i>Michael Sendtner</i>	283
16 Axonal transport and amyotrophic lateral sclerosis <i>Andy Grierson, Chris Miller</i>	309
17 Mitochondrial dysfunction and energy metabolism in amyotrophic lateral sclerosis <i>Giovanni Manfredi, M Flint Beal</i>	323
Section 5 – Therapy of amyotrophic lateral sclerosis and related disorders	333
18 Therapeutic trials in amyotrophic lateral sclerosis: past, present and future <i>Jacqueline Lau, Robin Conwit, Robert Miller, Merit Cudkowicz</i>	335
19 Palliative care and quality of life in amyotrophic lateral sclerosis <i>David Oliver, Gian Domenico Borasio</i>	357
Index	363
