# Spinal Trauma— An Imaging Approach

Victor N. Cassar-Pullicino  
Herwig Imhof

# Contents

## 1 Clinical Perspectives on Spinal Injuries

1

*W. S. El Masry and A. E. Osman*

<b>Introduction</b> .....	1	<b>Standards for Neurological Examination and Documentation</b> .....	7
Effects of Spinal Cord Injury .....	1	Frankel's Classification .....	8
<b>Clinical and Radiological Assessment in the Acute Stage</b> .....	2	The ASIA/IMSOP Classification .....	8
Missed Spinal injuries .....	2	<b>Management of the Spinal Injury</b> .....	9
Clinical Diagnosis of SCI in the Conscious Patient .....	2	The Secondary Injury .....	9
Clinical Diagnosis in the Semiconscious or Unconscious Patient .....	3	Biomechanical Instability of Injuries to the Spinal Column .....	9
Associated Injuries .....	3	Unstable Injuries Without Neurological Damage .....	9
Radiological Assessment .....	4	Physiological Instability of the Spinal Cord .....	10
<b>The Subacute Stage and Long Term</b> .....	5	Stable and Unstable Injuries with Neurological Damage .....	10
Assessment of the Cardiovascular System .....	5	Canal Encroachment .....	10
Assessment of the Respiratory System .....	5	Cord Compression .....	10
Assessment of the Abdomen .....	6	Natural History of Complete Spinal Cord Injuries ..	11
Bladder and Urinary System .....	6	Natural History of Incomplete Cord Injuries ....	11
Assessment of Level of Consciousness .....	7	<b>The Role of Surgery</b> .....	11
Psycho-Social Assessment of Cognitive Functions .....	7	<b>Conclusion</b> .....	12
Electrophysiological Assessment .....	7	References .....	12

## 2 Understanding Cervical Spinal Trauma: Biomechanics and Pathophysiology

15

*K.-S. Saternus and G. Kernbach-Wighton*

<b>Introduction</b> .....	15	<b>Injuries to the Intervertebral Disk and Major Longitudinal Ligaments</b> .....	24
<b>Atlanto-Occipital and Atlanto-Axial Joints</b> .....	15	Traumatology .....	24
Condylar Fracture .....	15	Biomechanics .....	24
Alar Ligaments .....	16	<b>Vertebral Injury</b> .....	28
Cruciform Ligament, Apical Ligament, Anterior Atlanto-Occipital Membrane, and Anterior Longitudinal Ligament .....	17	Compression Fracture .....	28
<b>Atlas Fracture</b> .....	18	Avulsion Fracture of the Margin of the Vertebra .....	30
Anterior Arch .....	18	Injuries to the Facet Joints and Intervertebral Foramina .....	30
Jefferson Fracture .....	19	Spinous Process Fractures .....	32
Lateral Mass .....	20	<b>Conclusion</b> .....	32
Posterior Arch .....	21	References .....	34
<b>Axis Fracture</b> .....	22		
Odontoid Fracture .....	22		
Hangman's Fracture .....	23		

*B. Tins and V. N. Cassar-Pullicino*

<b>Introduction</b> .....	36	<b>Specific Scenarios and Technical Considerations</b> .	47
<b>Imaging Modalities</b> .....	38	<b>An Approach to Imaging of Spinal Injuries</b> .....	50
Pros and Cons .....	40	<b>Conclusion</b> .....	51
<b>Imaging Approaches and Dilemmas</b> .....	45	References .....	51

### 4 Classification: Rationale and Relevance

*F. C. Oner*

<b>Why Classify?</b> .....	55	<b>Influence of Imaging Modality</b> .....	60
<b>Classification of Thoracolumbar Spine Fractures</b> .	55	<b>Problems of Reproducibility</b> .....	61
The Three-Column CT Era .....	56	<b>The Concept of Stability</b> .....	62
The Load-Sharing Classification .....	57	<b>Do We Need Any Classification at All?</b> .....	63
The AO (Comprehensive) Classification .....	58	References .....	64

### 5 Malalignment: Signs and Significance

*J. H. Harris, Jr*

<b>Introduction</b> .....	66	Case 7 .....	73
<b>Normal Alignment</b> .....	67	Case 8 .....	74
Cervicocranium (Occiput–C2–C3 Interspace) ....	67	Case 9 .....	74
Lower Cervical Spine (C3–C7) .....	68	Case 10 .....	75
<b>Malalignment</b> .....	69	Case 11 .....	75
Case 1 .....	69	Case 12 .....	76
Case 2 .....	70	Case 13 .....	76
Case 3 .....	70	Case 14 .....	77
Case 4 .....	71	Case 15 .....	78
Case 5 .....	72	Case 16 .....	79
Case 6 .....	72	Case 17 .....	79
		References .....	80

### 6 Vertebral Injuries: Detection and Implications

*R. H. Daffner and S. D. Daffner*

<b>Introduction</b> .....	81	<b>“Footprints” of Vertebral Injury—the ABCS</b> .....	93
<b>Indicators of High Risk for Injury</b> .....	82	<b>Vertebral Stability Following Trauma</b> .....	98
<b>Mechanisms of Injury and Their Imaging</b>		<b>Implications</b> .....	98
<b>“Fingerprints”</b> .....	83	References .....	98

*M. L. White and G. Y. El-Khoury*

<b>Introduction</b> .....	100	<b>Vascular Injury</b> .....	104
<b>MR Imaging/Histopathological Correlation of Acute Spinal Cord Injury</b> .....	100	<b>Vertebral Artery Injury</b> .....	104
<b>MRI Features of Spinal Cord Hemorrhage</b> .....	101	<b>Conclusion</b> .....	111
<b>Prognostic Role of MR Imaging in Neurological Outcome</b> .....	103	<b>References</b> .....	111

**8 Trauma to the Pediatric Spine**

113

*P. N. M. Tyrrell and V. N. Cassar-Pullicino*

<b>Introduction</b> .....	113	<b>Atlanto-Axial Dislocation</b> .....	121
<b>Development of the Vertebral Column</b> .....	113	<b>Atlanto-Axial Rotatory Fixation</b> .....	121
<b>Normal Variants</b> .....	114	<b>Thoracolumbar Spine Injury</b> .....	123
<b>Birth Injury</b> .....	117	<b>Physcal Injury</b> .....	126
<b>Nonaccidental Injury (NAI)</b> .....	118	<b>SCIWORA</b> .....	131
<b>Cervical Spine Injuries</b> .....	118	<b>Slipped Vertebral Apophysis</b> .....	133
<b>Atlanto-Occipital Dissociation (AOD)</b> .....	118	<b>Spondylolysis</b> .....	133
<b>Fractures of C1</b> .....	118	<b>Prognosis</b> .....	133
<b>Injury of C2</b> .....	119	<b>References</b> .....	133
<b>Os Odontoideum</b> .....	119		

**9.1 Sports Injuries: Spondylolysis**

137

*F. Kainberger*

<b>Introduction</b> .....	137	<b>Image Interpretation</b> .....	143
<b>Indications for Imaging</b> .....	138	<b>Imaging Anatomy</b> .....	143
<b>Investigation Techniques</b> .....	139	<b>Signs</b> .....	144
<b>Radiography</b> .....	139	<b>Differential Diagnosis</b> .....	146
<b>Computed Tomography</b> .....	139	<b>Conclusion</b> .....	148
<b>Magnetic Resonance Imaging</b> .....	139	<b>References</b> .....	148
<b>Nuclear Medicine Studies</b> .....	139		
<b>Ultrasound</b> .....	139		

**9.2 Sports Injuries: Diskovertebral Overuse Injuries**

149

*J.J. Rankine*

<b>Introduction</b> .....	149	<b>Disk Degeneration</b> .....	152
<b>Anatomy</b> .....	149	<b>References</b> .....	153
<b>Scheuermann's Disease</b> .....	150		

*P. H. Lander*

<b>Introduction</b> .....	155	<b>Mechanisms and Imaging Techniques</b> .....	155
<b>Ankylosing Spondylitis</b> .....	155	<b>Cervical Spine Injuries</b> .....	157
<b>Disseminated Idiopathic Skeletal Hyperostosis (DISH)</b> .....	155	<b>Thoracolumbar Spine Injuries</b> .....	160
		<b>References</b> .....	165

## 11 Spinal Trauma in the Elderly

166

*S. Ehara*

<b>Background</b> .....	166	<b>Thoracolumbar Spine</b> .....	170
<b>Cervical Spine</b> .....	166	Biomechanical Characteristics .....	170
Biomechanical Characteristics .....	166	Clinical Features .....	170
Clinical Features .....	166	Imaging Techniques .....	171
Imaging Techniques .....	167	Imaging Features .....	172
Radiological Features .....	167	<b>Conclusion</b> .....	174
		<b>References</b> .....	174

## 12 Therapy—Options and Outcomes

175

*J. M. Trivedi*

<b>Introduction</b> .....	175	<b>Management</b> .....	178
<b>Epidemiology of Spinal Trauma</b> .....	175	Initial Management .....	178
<b>Pathophysiology of Spinal Cord Injury</b> .....	175	Pharmacological Intervention .....	180
<b>Anatomical Classification of Spinal Fractures</b> ....	175	Nonsurgical Management of Spinal Fractures ...	180
<b>Patterns of Injury</b> .....	176	Surgical Treatment of Spinal Fractures .....	181
Flexion Injury .....	176	Burst Fractures .....	183
Burst Fractures .....	176	Osteoporotic Vertebral Fractures .....	184
Flexion Distraction Injury .....	176	<b>Conclusion</b> .....	185
Flexion Rotation .....	178	<b>References</b> .....	186

## 13 Imaging in Chronic Spinal Cord Injury: Indications and Benefits

188

*R. Bodley*

<b>Abbreviations</b> .....	188	Cord Changes Post-SCI .....	189
<b>Introduction</b> .....	188	Reported Series .....	191
<b>Neurological System</b> .....	188	Treatment .....	192
		Imaging .....	192

<b>Urological Investigations</b> .....	196	Pressure Sores .....	197
Surveillance .....	196	Ectopic Ossification .....	199
<b>Imaging in Specific Conditions</b> .....	197	Pain .....	199
Deteriorating Neurology .....	197	Muscular Spasms .....	199
Spinal Instability .....	197	Airway Problems .....	199
The Acutely Unwell Patient .....	197	Elective Management of the Renal Tract .....	199
Deteriorating Renal Function and Renal Tract Complications .....	197	<b>Conclusion</b> .....	199
		References .....	201

## 14 Vertebral Fractures and Osteoporosis

203

*P. Peloschek and S. Grampp*

<b>Introduction</b> .....	203	Dual X-ray Absorptiometry .....	206
<b>Definition</b> .....	203	Quantitative Computed Tomography .....	207
Osteoporosis .....	203	Quantitative Ultrasonography of Bone .....	207
T-Score and Z-Score .....	203	Radiographic Absorptiometry .....	207
Vertebral Fragility Fracture .....	204	Single-Photon Absorptiometry .....	207
<b>Epidemiology and Outcome of Osteoporotic Spinal Fractures</b> .....	204	<b>The Radiologist's Role in Therapy—Percutaneous Vertebroplasty</b> .....	208
<b>The Radiologist's Role in Diagnosis</b> .....	204	<b>Conclusion</b> .....	208
Screening during Routine Chest Radiography ...	204	<b>Ten Things to Remember</b> .....	208
Diagnosis of Osteoporosis on Lateral Radiographs of the Spine .....	205	<b>Case Study</b> .....	209
Bone Densitometry .....	205	References .....	211

## 15 Vertebral Collapse—Benign or Malignant

213

*A. M. Herneth*

<b>Introduction</b> .....	213	Imaging Findings .....	214
<b>Clinical Evaluation</b> .....	213	New Imaging Methods .....	218
Age .....	213	Biopsy .....	220
History of Trauma .....	213	<b>Conclusion</b> .....	220
		References .....	221

## 16 Neuropathic Osteo-Arthropathy of the Spine

223

*A. Chevrot, A. Feydy, C. Vallée, J. L. Drapé*

<b>Introduction</b> .....	223	<b>Differential Diagnosis</b> .....	228
<b>Mechanism</b> .....	223	<b>Treatment</b> .....	230
<b>Clinical Findings</b> .....	225	References .....	230
<b>Imaging Findings</b> .....	225		

# 17 The Future: Trends and Developments in Spinal Cord Regeneration

231

*A. E. Osman, D. J. Short, V. N. Cassar-Pullicino, H. Imhof, W. S. El Masry*

<b>Introduction</b> .....	231	<b>Future Trends—Role of Imaging</b> .....	233
<b>Spinal Cord Research</b> .....	231	<b>Conclusion</b> .....	233
Neuroprotection .....	232	References .....	233
Regeneration .....	232		
Transplantation .....	232		
Rehabilitation .....	232
